The original version of this article [1] unfortunately contained a mistake in Figure 2. Figure panel 2c and 2d should read as follows:

1. Figure 2c: Spearman  $r = 0.38$  with no  $-$ (negative) sign.
2. Figure 2d: Spearman  $r = 0.42$  with no  $-$ (negative) sign and  $p < 0.001$  and not  $p = 0.001$ .

An updated version of Fig. 2 has been provided below.

The original version of this article has been updated to reflect this change.
